

THE CHRONICLE

Provincial Library
Edmonton

VOL. VII. NO. 31.

CROSSFIELD, ALBERTA, FRIDAY, JULY 30th, 1915.

PRICE \$3 A YEAR.

LAUT BROS.

Binder Twine \$9.25
per cwt.

WE are soliciting orders for 550 foot Binder Twine for delivery early in August, at a net price of 9 1/4 cents per lb., f.o.b. car Crossfield.

In connection with this we offer privilege of cancellation up to August 15th in the event of crop failure.

Remember this is a net price, without any extra commissions, and we feel that owing to the unsettled condition of the twine market to-day, this is an exceptionally low price.

We will be glad to book your order now.

Local and General

Mrs. Purvis, Shaw, Jose and Whitfield wish to thank all, who assisted them in the preparation of or in any way contributed to the success of their garden party on Tuesday evening.

Weather permitting, the W.A. will meet at the home of Mrs. H. Schofield, on Thursday afternoon, August 5th at 2:30 o'clock.

The Women's Institute will meet on Saturday, August 7th, in the I.O.O.F. Hall at 2:30 p.m.

We are in the market with highest prices for poultry. Shipping every Thursday morning.

Farmers Meat Market.

Just as we were going to press last week a hailstorm of unusual severity passed over this district, luckily it did not cover a very wide area. It certainly left its mark in the course it took, ruining growing crops, smashing windows, roofs, etc. Some of the hailstones were of great size, one of our readers picked up one which measured 5/4 inches in circumference, another one was weighed and turned the scale at 1 1/2 ounces.

Our attention has been called to a very pleasing yet touching incident which took place in Crossfield this week. A little girl called at the home of one of the officers of the local Red Cross Society and tendered 25 cents. When asked what it was for, she replied that she had been gathering Saskatoons, and had sold them for 25 cents, and she wanted to give it to the Red Cross for the wounded soldiers.

What a good example some of the little children can and have shown during these trying time. This little girl played her part, only small, yet a great deal for her to give, and the local Red Cross Society thank her, knowing that as she grows older she will do greater things.

The little girl in question was Marie Becker.

Card of Thanks.

Mrs. Eagleson and family beg to extend their sincere thanks to the people of Crossfield and district for their kindness and tokens of sympathy during their sad bereavement.

Notice to the Public.

Having decided to put our business on a Strictly Cash basis, we would respectfully request that all Accounts Owing to the Farmers Meat Market be paid on or before August 10th. After that date positively no credit will be given.

Money to Loan.

Reasonable Terms. We have been appointed Financial Correspondents for an Eastern Company which makes Loans with only 2 per cent. brokerage fee. Write us for terms, stating the value of your property and amount of loan desired. Address: Financial Agency, 500 McArthur Buildings, Winnipeg, Man.

Popular Our Farm Lands

Only Eleven Per Cent. of the Land Occupied by Farmers

There are two clearly defined and contrary forecasts of the after effect of the war on Canada. The pessimists declare that our immigration will suffer because as the war continues more men will be needed in Europe; that capital will not be loaned to us because it will be required to rebuild the shattered cities and public works; and that all the conflicting nations will be compelled to restrict their own farms and factories to save them from ruin.

The optimists contend that our immigration will be swelled by thousands who will be tired of perpetual conflicts; that capital, regardless of sentiment, seeks the most profitable fields; and that we cannot get it in Europe we can get it in the United States; and that the assistance of Canadian factories and farms will be called upon to help rehabilitate Europe.

Men of high standing and sound judgment are ranged on both sides of this controversy, but the indications that the optimists are prevailing. At any rate, economic history is fairly consistent in showing that the trade of a victorious nation thrives when the period of readjustment, immediately following the termination of a successful war, is over.

There is agreement as to the necessity of increasing the production of our land. We have plenty of land, but land without tillers will not produce wealth. Volume Number 4 of the Census, dealing with agriculture, which has just been issued in bound form, states that the total land area of the Dominion is 2,306,021,152 acres, of which, at the date of the Census, the nine provinces occupied 977,585,513 acres. Eleven per cent. of the land in the provinces or 109,948,988 acres, was occupied by farmers, while the land considered suitable for farming was 35 per cent. of the total.

How to secure from these vast areas the production of wealth, then, are capable of our chief national problem. If we could solve it we would be assured of corresponding industrial development, and the necessary capital to finance both agriculture and industry. Canada needs an immigration policy which can succeed in settling experienced farmers on our soil, and the United States on our vacant, fertile lands—Industrial Canada.

Minard's Liniment Cures Distemper

Flour Milling Flourishes

While Western Canada is essentially an agricultural country, a number of industries, particularly those that are related to agriculture, are growing up in the country. Industries devoted to the manufacture of hardware products from the farm into finished materials are in a flourishing state, as may be judged from the announcement made by one of the leading flour milling companies in the west a few days ago, that the plant at Brandon, Manitoba, is to be doubled in capacity. The present plant of the company at Brandon has a capacity of 500 barrels of flour and 100 barrels of oatmeal daily. A new steam plant elevator with modern cleaning plant is also to be erected.

A Scottish soldier seriously wounded in a hospital ward with eleven other slightly wounded men. The poor chap was not expected to recover. When told there was no hope for him, he expressed a desire to see his babies once more before he died, and the kind house-surgeon sent out and found a paper which he had written up and down the ward playing Scotch airs on his national instrument. The next day the house-surgeon asked the head nurse how the Scotman was. "Oh, he's all right, now," she replied; "but all the other dead patients are dead!"

Madge (reading letter from brother at the front)—John says a bullet went right through his hat without touching him.

Old Auntie—What a blessing he had his hat on, dear.

Corns Applied in 5 Seconds

Cured Quick

Sore, blistering feet from French or British troops can be cured by 24 hours. "Putnam's" ointment that draws pain, causes instantly, makes the foot feel good, then. Get a 5c bottle of "Putnam's" ointment.

The Potato

Interesting Information About the Tuber and Its Cultivation

Everybody may think he or she knows the potato, but a personal of Pamphlet No. 2, issued by the Publications Branch, Department of Agriculture, Ottawa, upon the Solanaceae tuberosum, will convince the same he or she that there is much to learn. A reprint from the Agricultural Gazette, official mouthpiece of the department, the pamphlet is a collection of articles of superlative worth. Introduced by a brief historical statement showing the place the potato occupies in the world's domestic economy, and especially that of Canada, by which it would appear that the crop worth to this country upwards of \$1,500,000 a year, we are presented with a complete exposition of the cultivation of the tuber by Mr. W. T. Macdon, Dominion Horticulturist. Mr. T. G. Guss, Dominion Botanist, explains first the disease to which the potato is subject and how they can be controlled, and next, the results of inspection under the microscope. Essays telling the story of potato production in each of the provinces of Agriculture, Mr. J. L. Theodor Rosa of Prince Edward Island; Superintendent of Agriculture Societies, P. L. P. of Nova Scotia; Secretary for Agriculture, J. B. Daggett of New Brunswick; Professor of Agriculture, Rev. H. B. of Quebec; Professor T. G. Bunting of Macdonald College, Professor C. J. Zavits of Ontario, Agricultural College; Professor J. Bracken of Saskatchewan; Department of Agriculture, Ottawa. Harcourt of Alberta; Assistant Soil and Crop Instructor, W. Newton of British Columbia; and the Secretary of the Canadian Seed Growers' Association, give weight and importance to the highest expert concerning the report, which is made complete by a report telling how potato-growing contests are conducted in Manitoba and by a table of the world's production for three years.

Shows Germany to be the greatest potato-producing country and also that, excepting the United States, the United States, the production is everywhere on the decline. Everybody who is interested in the potato-growing will be interested in this pamphlet and should send for it to the Publications Branch, Department of Agriculture, Ottawa.

Canada's Grain

Western Canada Grain Exhibits Carry Premier Honors Against the World

The winning of seventeen prizes out of nineteen entries of Western Canadian grain at the San Francisco exhibition is only another in the long line of victories achieved by the prairie provinces of Canada in this connection remarks the Calgary Herald.

It is a fact that Western Canada exhibits wherever they have been shown in the last ten years have swept the boards, no matter by what they have been opposed. It was the same at the 1911 exhibition at the International Irrigation association.

All this goes to show that every Western farmer can accomplish if he will supplies himself. Our governments, Dominion and provincial, are giving the agriculturist every chance to learn how to get the best results, both in quality and quantity, from his land.

The chief requirements are the purchase of good seed and the careful preparation of the land. As has been achieved at the Panama Pacific exhibition should every grain grower in the west to please offer—Saskatoon Star.

Economic Use of Horses

One of the most frequent sources of loss on the farm is an insufficient return from horse labor.

Do your horses earn enough to pay for their feed, care, and enough to meet the interest, depreciation and other expenses, as harness costs and shoeing?

Do you handle the horse labor on your farm so that the animal is kept in the best condition—that is, keeping your horses is less than the average, or so that the number of horses worked is greater? Both methods will reduce the cost of horse labor, but the latter offers by far the greatest opportunity.

Can you revise your cropping system so that fewer work horses will be needed, or so that the work will be more equally distributed and thus less horses employed than your present horse force?

Can you raise colts and thus reduce the cost of keeping your horses?

Can you arrange to use your work horses for outside work when not busy on the farm?

Can you reduce the cost of keeping each horse by feeding less feed or cheaper feed and still give a proper ration?

"General Joffre has by a stroke of the pen removed whatever temptation in the way of honor may tempt French or British troops in the rapacious from the trenches," says the "Pitt Mail." "By removing the incentive to sell drink to any soldier in the zone of either army, and an equal incentive to 'accept' any bribe. This does not affect, of course, the regular alcoholic ration, to the benefit of which there is abundant testimony."

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera, infantum, colic, diarrhoea and dysentery, come so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must therefore be prepared to prevent these troubles, or if they do come on suddenly to cure them. No other medicine, however, is so effective as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Miller's Worm Powders are not surpassed by any other preparation as a vermifuge or worm destroyer.

Indeed, there are few preparations that have the merit that it has to recommend it. Mothers, aware of its excellence, feel that it is the first indication of the presence of worms in their children, knowing that it is a perfectly trustworthy remedy, and that it gives immediate and lasting relief.

Gasping for Breath

Horrible Effect of the Poisonous Gas Used by the Germans

"If moving pictures of the terrible effects of the poisonous gas used by the Germans were shown in Canada, there would not be an able-bodied Canadian from coast to coast who could not tell of the horrors of the gas." declares E. H. Bradley, writing to his wife after he had visited the front and seen the Canadian headquarters at Shorncliffe, Kent, Eng.

If you could see some of the agonized expressions of the faces of those who have been fought at Ypres and are now in hospital, gasping for the sweet breath of life, victims of the poisonous gas, and asphyxiating gases blown into the trenches, it would make you, woman, feel that you are cursed as enemy and the wonderful charge our boys made makes the charge at Balahua pale into insignificance.

It makes me feel proud to wear the maple leaf, and this spirit is predominant among our boys.

"The scene when the reinforcements marched down to embark for France will for ever live in the memory of those who witnessed it. Thousands of Kitchener's army lined the banks of the river to the wharves, cheering the boys from Canada, who were going to fill the gap caused by that terrible work of fighting."

"I wished to heaven that there were 50,000,000 people in Canada instead of 8,000,000, so that more men like them could be sent across. It is a man's duty to die for his country, and that is the only remedy to crush for ever such pests of civilization as are the Hun."

The British Tommy's admiration of the Canadian as a soldier is well expressed by Pte. A. McNeill of the 1st Canadian Trench Battalion in Constantinople, Royal Engineers, serving with the 24th Division of the British army.

Having refused to surrender to the supreme bombardment of Ypres when the shells from German guns poured into the British lines, he also refused to surrender, Pte. McNeill says.

"This was the time when the Canadian was very heavily and also suffered much from the gas. They are a fine lot of fellows, and I think they were without a doubt, and if the second contingent you speak of is anything like the first, I think on sending 'em' we can do with as many as you can send."

Sore Eyes

Dr. Ross's Eye Ointment is a sure cure for all eye troubles. It is a simple, safe, and effective remedy for all eye troubles, and is sold by all druggists. It is a sure cure for all eye troubles, and is sold by all druggists.

Canadian Trade Overseas

Altered conditions, resulting from the war, have caused some changes to be made among the Canadian trade commissioners, though the grouping of the trade commissioners in the United Kingdom suggested last year, has been deferred. Trade with Holland has almost completely ceased since the war, and John T. Lithgow, who had been in charge of the office there, has gone back to his old position at Glasgow, vacated by the resignation of Fred Dane. Mr. Dane was recently appointed a member of the Ontario legislative board.

The Canadian office in Rotterdam has not been closed, but an assistant official is in charge. C. F. Just, formerly in charge of the office in London, has finished his mission at Petrograd, and is now at Moscow. He will later visit the office in London.

Mr. Just is working for the development of Canadian trade in Russia.

The arrangement with the Canadian Pacific for a service between Vancouver and Vladivostok is not part of the trade development scheme of Sir George Foster, but will have a beneficial effect upon it.

Minard's Liniment Co. Limited.

Dear Sirs,—This fall I got thrown on a fence and hurt my chest very bad, so could not work and hurt me to breathe. I tried all kinds of liniments and they did me no good.

One bottle of MINARD'S LINIMENT, warmed on a dandelion and applied on my breast, cured me completely.

C. H. COSSABOOM, Rosaway, Digby Co., N.S.

What to Expect

"What makes you think the baby is going to be a great politician?" asked the young mother.

"If I tell you, answered the young father, confidently. "He can say more things that sound well and mean nothing than any kid I ever saw."

A clumsy carrier once sent a goose into a lady's lap. His apology was better than his carrying. "Ah, madam, how potent your charms are; they attract not only the living but also the dead!"

Constipation, Indigestion and Horrible Backaches

Searched for a Cure for Years—Advised to Try Dr. Chase's Kidney-Liver Pills and Was Cured.

Where there is poison there is pain. This is a provision of Nature to warn you against conditions that are likely to prove serious.

Constipation of the bowels is one of the most common and greatest sources of disease and suffering. It is caused by the use of Dr. Chase's Kidney-Liver Pills as a laxative, and is often a sign of a serious condition. It is caused by the use of Dr. Chase's Kidney-Liver Pills as a laxative, and is often a sign of a serious condition.

Pacific & British Lake

The munitions of war which France has not been able to manufacture at home she has imported in large measure across the Atlantic by the aid of the allied powers. Thus the German hope to secure munitions of war from the workhouse of the United States across the Pacific, from which the German flag has entirely disappeared.

Japan is now a British lake. Japan also is believed to be cooperating with the Russians in furnishing the Russians with munitions of war—Winnipeg Free Press.

The most obstinate corns and warts fall to root. Holloway's Corn Cure. Try it.

"World power or downfall" was the challenge of Prussia; and the world is rising Germany with steel, grimly determined to fight that issue to the end. And there can be but one result. The Lusitania taught us nothing else could have done—New York Press.

Kidney-Liver Pills will help you to form this habit of taking to your health, and bring comfort in old age.

Professor A. T. Smith, 1 Mt. Charles, Mass., writes: "I suffered for many years from indigestion, constipation and horrible backaches. I have been treated by many doctors, without any benefit. I then read in Boston advised the use of Dr. Chase's Kidney-Liver Pills. After using two boxes I felt a great improvement, and after the fourth box I was cured. I have never felt any pain in the back. My head is clear, and I feel like a young man again. I think Dr. Chase's Kidney-Liver Pills are one of the best I have ever taken."

Social and Garden Party in Aid of the Local Red Cross Funds.

On Tuesday evening a social and musical evening was held on the lawn at the residence of Mrs. Frank Purvis, a large number of people assembled. The lawn was decorated with bunting and illuminated by Chinese lanterns. Refreshments were served on the verandah, the concert being held on the south side. The feeding of the inner man was in the capable hands of Mrs. Purvis, Mrs. Jose, Mrs. J. H. Whitfield and Mrs. W. S. Smith who were kept quite busy, but were equal to the occasion, whilst Mrs. Shaw was in charge of the musical part of the program and deserves special mention as much of her time must have been spent in arranging such a program, which was appreciated as was shown by the applause given. The disposal of the ice cream was left in the hands of Miss Mae Ruddy and Miss Marie Outkes, many a visitor to their ice cream tables was forced to part with a dime to satisfy their pleading, so much so that they had disposed of their entire stock in good time. During the concert interval fireworks were discharged. The concert artists were Messrs. Jose, Edwards, Baker, and K. Shaw. The Crossfield Choral Society made their initial appearance. Mr. R. Shaw of Calgary, rendered cornet solos; Mrs. E. Shaw and Miss Collins pianoforte and vocal solos. Mr. Jose rendered a new patriotic song, "The lonely one at Home," the words and music of which were composed by Mrs. R. Shaw of Crossfield and was very well received. The Crossfield Orchestral Society rendered various items. Mrs. Shaw was the accompanist and Mr. E. H. Morrow was chairman. Everybody admitted that a most enjoyable evening had been spent. The proceeds amounted to \$40 to be handed over to the local Red Cross Society.

Edmonton Exhibition to be A Military Exhibition.

Bugle calls will usher in the Edmonton Exhibition of 1915, a genuine Military Exhibition in keeping with war time. Visitors to the exhibition, August 9th-14th, will enjoy the unique experience of seeing war and peace combine for the welfare of the exhibition. The 6th and 68th Battalions C.E.F. now quartered on the exhibition grounds in training for active service, are co-operating with the Exhibition Association to keep things going "as usual" at home, and make the Fair of 1915 a brilliant success, bigger and better than ever before.

Entries have been heavy and represent a high class of exhibits, worthy of the attention of every visitor. The attractions arranged are of the best, and include many military events, such as mass physical drill and similar features put on by the battalions mentioned previously. Chas. Ross, of Toronto, will conduct the International Military Tattoo, with representatives of the British, Canadian, French, Belgian, Russian and Italian armies, marching to the soul stirring strains of national music.

The Musical Ride will be put on by sixteen boys and girls riding ponies, and promises to be a popular event. Another feature which promises to rival all others is the roller coaster which has just been completed. This will provide thrills for everybody who boards its comfortable cars which glide away up hill and down, over trestles and in their shade, covering the half mile route in a minute and a half.

The World At Home Shows on the Midway are clean high class shows, and the events put on before the grandstand are new to Edmonton and distinctly high class.

Exhibition visitors will find entertainment unsurpassed in the history of the Edmonton Exhibition.

The Alberta Mixed Farming Special train sent out by the Department of Agriculture will be on the grounds, and visitors are advised to go through this train and hear the lectures in connection with the exhibits.

Meeting of Rural Municipality of Rosebud No. 280.

The seventh meeting of the Rural Municipal Council was held in the office of the Municipality at Crossfield, on Monday, July 26th, commencing at 11 a.m. Present: Pearson, Wagle, Casey, Copeley, Wood and Stearns.

The minutes of Meeting held June 11th were read and approved.

Communication from Minister Stokes re Road survey and diversion between sec. 23 and 24, tp. 29, R. 29, W. 4th road, and it was moved by Wood, "That the Secretary take the matter with Mr. Chatman and Mr. Stoddard, and afterwards advise Mr. Stokes." Carried.

Communication from Inspector Calder re survey in N.E. 24, sec. 12, tp. 29, R. 28, W. 4th.

Moved and carried: "That Reeve and Deputy Reeve be a committee to take this matter in hand."

Moved and carried: "That the Secretary be allowed up to the sum of \$50 to procure assistance in getting out the Tax Enforcement Return."

Moved and carried: "That the Reeve be instructed to take legal action against any party who wilfully or otherwise places any noxious weeds on the public highway."

Moved and carried: "That Councilors notify the Secretary of any infractions of the Noxious Weeds Act that may come to their notice, and he to give notice in writing to the party offending."

Moved and lost: "That the sum of \$150 be granted the Crossfield and District Agricultural Society."

Moved and carried: "That the Reeve and Treasurer be authorized to borrow up to \$3,000 for school purposes, from the Union Bank of Canada, Carstairs, payable on or before the 31st Dec., 1915."

Moved by Copeley: "That we ask for a survey on sec. 28, tp. 28, R. 27, W. 4th. Action on herd bye-law was laid over until next meeting."

The following accounts were found correct and ordered to be paid:

SEVENTY-FIVE CENTS A BOTTLE

Letters About Pensions

Dear Sir: Direct Correspondence to Get Prompt Attention

The militia department advises that all correspondence with the department in connection with pensions should be sent directly to the pension office, Ottawa, this facilitating completion and answers. Hundreds of letters are sent every day in connection with claims for pensions, and as most of these letters are sent without any specific departmental address, the time of the minister and deputy minister and their clerks are unnecessarily taken up in sorting out the pension correspondence.

It may be noted also that the flood of correspondence in connection with pension information regarding soldiers at the front is also imposing a heavy burden on the officials, and as total correspondence of the department has increased by very many thousands letters per day.

Deafness Cannot Be Cured

Dr. Williams' Pink Pills for Pale People. There is only one way to cure deafness, and that is by the use of Dr. Williams' Pink Pills for Pale People. Deafness is caused by an exhausted condition of the system, and the only way to cure it is by the use of Dr. Williams' Pink Pills for Pale People. These pills will cure deafness by restoring the system to its normal condition.

Woman's Share in the War

When the war is over and the British people go back to the things that are their own household, they will realize that while men fought nobly on the battlefield, women worked no less nobly at home, and with this realization will doubtless see an awakening of the woman's share in the war. The woman's share in the war is not only in the government, but in the home.

Minard's Liniment Cures Colds, etc.

GAS NO NEW GERMAN IDEAS

Canadian Finds Reservoirs Marked 1914 and Respirators With Date of 1911

"A letter received in London, Midlothian, by friends of a corporal serving in the Canadian contingent, states that his company, on capturing one of the enemy's trenches, found gas reservoirs of poisonous gas marked 1914, and also respirators dated 1911.

The discovery would seem to indicate that the plan of using poisonous gas was a new thing with the German army, as has been generally understood to be the case.

The first recorded case of extensive use by the Germans of gas against the foe was north of Ypres on April 22, when the French lines were driven back two or three miles after a cloud of gas was wafted into their trenches from the German front.

"Good youth, may I assume that you are reading newspapers?" inquired the stranger who was trying to act like a native of Boston.

"In sooth, I am, sir."

"And may one acquire a copy for the usual consideration?"

"Ay, verily."

So the transaction was concluded.—*Lowville Courier-Journal.*

A Case for Organization

From Winnipeg comes the statement that those on whom the responsibility rests of securing enough men for harvest time are worrying as to where they are to come from. After all that we have heard about unemployment this comes as a surprise. The whole trouble is that our economic activities lack organization in the worst kind of way. In the old land the government and the people are beginning to realize how much they may learn with profit from Germany in this respect. The military forces of Germany would never have been able to re-complement so much if they had not been backed up as they are by a well-organized organization, which is a time of immense stress has accomplished wonders. There is no getting away from this. And what has proved so great an advantage in time of war must do so in time of peace.—*Edmonton Journal.*

THE DAWN OF YOUNG WOMANHOOD

Girls upon the threshold of womanhood often drift into a decline in spite of all care and attention. Even strong and lively girls become weak, nervous, irritable and listless. It is the dawn of womanhood—a crisis in the life of every girl—and prompt action is taken to keep the blood pure and rich with the red that of health. If the body is not in a healthy condition at this critical stage, grave disorders may result, and future life become a burden. Deafly contented often follows this crisis in the lives of young women. Dr. Williams' Pink Pills for Pale People have saved thousands of young girls from what might have been life-long invalidism or worse. They are a blood builder of unequalled merit, strengthening weak nerves and producing a liberal supply of rich red blood, which every girl needs to sustain her strength.

Over and over again Dr. Williams' Pink Pills have proved their value to women and girls whose health was failing. Miss Jeanne Giesse, St. Jerome, Que., says: "At the age of eighteen my health was completely shattered. I was suffering from anaemia with all its attendant evils. The trouble forced me to leave school. I suffered from headaches, dizziness and breathlessness at the least exertion. I had no appetite, and my face and lips were literally bloodless. A good friend advised the use of Dr. Williams' Pink Pills, and thanks to this great medicine I am again enjoying good health, with a good appetite, and a color and a spirit of energy."

Every anaemic girl can be made well and strong through the use of Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box of six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The fifth anniversary of King George's accession, recalls the fact that few of our monarchs have escaped a serious war during the early years of their reign. Britain was at war with Spain within four years of George I's accession; George II., thanks to William, had twelve years' peace before he also was involved in a European conflict; George III. found his country already at war with France on his coming to the throne; Queen Victoria, although at peace in Europe for seventeen years after her accession, was committed to a serious war in Afghanistan in the second years of her reign; and when Edward VII. succeeded, the hour war was still at its height.

Awful Asthma Attacks—Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

The Secret of the Swiss—There is no Swiss race. There is no Swiss language. The people of Switzerland are German, French or Italian in race and language. But in patriotism they are all Swiss.

Of the twenty-two cantons—fifteen are German, five are French and two are Italian. Incidentally it may be mentioned that twelve of the cantons are strongly Protestant, and ten strongly Catholic. Yet there is absolute national unity. Switzerland stands solidly and harmoniously for Switzerland. The German Swiss of Schaffhausen are not for Germany; the French Swiss of Geneva are not for France; the Italian Swiss of Ticino are not for Italy; and this in spite of the fact that these outlying cantons are almost surrounded by Germany, France and Italy respectively. Racial ties and ties of language may be strong, but the ties of patriotism are much stronger.—*Cleveland Plain Dealer.*

Minard's Liniment Cures Diphtheria.

It is said that Phil Thomas Shaughnessy has been negotiating for a very extensive settlement of time-expired soldiers on Canadian farm lands at the end of the war, settlement to be carried on by the C.P.R. colonization department.

The C.P.R. holds extensive lands, especially in Alberta, which require settlers, and such an arrangement would be an admirable one for Canada, Great Britain and the Empire.

A Newark woman wouldn't come out of a burning building because she couldn't find her stockings. The firemen, though, had plenty of hose, so she was rescued.—*Glasgow Mercury.*

Efficiency and Economics

Economic Advancement Should be Abstract of Advancement in Productive Power

Industrial experiments and investigations by Canadian universities are to be promoted by the Dominion government, according to announcements from Ottawa. Governmental inability to use or open opportunities for the great volume of human efficiency now involuntarily idle or partly so has not lessened the impulse toward improving or increasing efficiency. This may be because the quest for efficiency of funds nobody while every effort toward any economic reform that would open opportunities for efficiency must necessarily affect established interests. There is here a plausible explanation of advances in chemistry, in metallurgy, in electrical engineering, in structural designs, in labor-saving machinery, and in the mechanical department of every field of industry, contrasting with aspect failure in the simple economic problem of involuntary idleness. Investigators in the physical sciences work with a single eye to discovery and the application of all acquired knowledge to the service of humanity. The student is held back and discouraged by a multitude of restraints. He might as well try to save the world as the income of the educational institution in which he is working. Beneficial experiments in efficiency might be discouraged by discoveries or conclusions. Individual and class antagonisms would be encountered. The application of remedies might be objected to as interfering with the status quo. This seems to be an almost inevitable obstacle. The problems to be solved are not of a technical nature, and influence are in the hands of those who gain, or think they gain, by maintaining the status quo. The investigation against reform must be in consequence, from a momentary point of view, be the strongest. Tolstoy expressed the sentiment of the situation when he said he had been in the factory and was sitting on the worker and crushing him to the earth, willing to give him charity, but not willing to assist him in every way except by getting off him. Economic reform, if real and lasting, must begin by forcing the toils of class to dismount, and in that necessity every country faces an obstacle so far as reform is concerned that is contemporaneous with its advancement in efficiency. The productive power and create wealth as if by magic, there is the mysterious spectacle of involuntary idleness and an inability to allow productive capacity to be exercised. There is abundant energy and effort toward bringing economic advancement abreast of advancement in productive power.—*Toronto Globe.*

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Expeller. It gives relief, its effects are sure and lasting.

C. P. R. Service in Russia

Through Freight Service From the Dominion to Russia by the Trans-Siberian Railway

The traffic arrangement by which the C.P.R. will represent the Russian government in providing for through freight services from the Dominion to Russia by the Trans-Siberian Railway and the Russian Volunteer Fleet, which is an auxiliary of the railway, is an amplification of the connection with the Trans-Siberian Railway, which is a single line, and the company has offices in Moscow and Petrograd in which it does business. The only railway on this continent to have such offices in Russia. If it could seem strange that the company would do business in either city, it need only be mentioned that the C.P.R. is the only railway in America which is a member of the Round the World Conference of which the executive of the Trans-Siberian Railway is a chief element. The Canadian Pacific, in its round-the-world tour, uses, of course, the Trans-Siberian Railway line which the average Russian always calls the "Transcontinental" line—the best in the nation, the system conveys to him the notion of the line, which is not built at all on this continent, but it serves the purpose in the physical circumstances on the system, which is differentiated in several ways from those on this continent.

Lay Look to Canada For Flax

The spinning and linen industry in England has in the past secured its raw material from Germany, Russia and Austria-Hungary, and now that conditions are such as to render a further commerce in this line impossible, the mill owners are now looking to this country to supply them with the fibre.

Soldiers' Plea for Shells

Glasgow Workmen Visit Firing Line and See Need For More Munitions

"We have returned from the front determined to do our best and to persuade our fellow workmen to do their best to turn out munitions at top speed," is the message a party of armed craftsmen have brought back after a visit to the British forces in Flanders, where every opportunity was afforded them to see the war in all its dimensions.

The result apparently has justified the unique experiment undertaken by the Glasgow Workmen's Union in the production of ammunition in Glasgow, which found that its output was falling considerably short of the capacity of the plant. The firm, convinced that its employees were not giving their best services, obtained permission from the government to send eight of its men to France to see for themselves the conditions under which the British army is fighting.

According to the men's report, hundreds of soldiers and officers interviewed by them in the trenches and elsewhere bleated with exasperation for more shells.

"They howl for more with as mislabeled workers," said a member of the firm, "and I am satisfied that the result will be a great increase in our output."

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses much power in concentrated form than one hundred times the quantity of many unguents. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock complete without it.

Carson's Clever Retort

Sir Edward Carson, the leader of the Ulster Conservatives and the attorney-general in the new Coalition cabinet, is usually regarded as a demagogue, but he is a master in the art of making witty and telling retorts.

Sir Edward who is an eminent lawyer, during one case in which he appeared had more than one passage at arms with the judge. His lordship finally between a prosecution and a defence between the evidence given by two of Sir Edward's principal witnesses who were a carpenter and the other a tavernkeeper.

"That's so, my lord," instantly retorted Sir Edward, "at another case of difference between the bench and the bar."

Minard's Liniment Cures Garget in Cows.

"I don't think I'll go to school to-day mother."

"Why, Eddie, I thought you liked to go to school."

"I do, mother; but, you see, some of the boys in my class are not so far advanced as I am, and I thought it would be nice if I stayed away and gave them a chance to catch up."

Encouraging Prospects

Reflector (to yokee who is about to get married)—But, Peter, can you really afford to keep a wife?

Peter—Well, sir, I can almost afford to keep myself, and it's a poor woman that can't help a bit.

PRAIRIE HARVESTER OIL

A most durable oil for binders, separators, glue plows and farm machines of all kinds. It is heavy-bodied, yet free running; takes up the play and saves wear. Not affected by weather.

Standard Gas Engine Oil

An absolutely reliable lubricant for all types of internal combustion engines—either gasoline or oil burning.

Capitol Cylinder Oil

Manufactured especially for the lubrication of steam tractor and stationary steam engines.

Thresher Hard Oil

A high grade cup grease for use on separators and other farm machinery.

Eldorado Castor Oil

A heavy oil for farm machinery, especially adapted for loose-fitting and worn bearings.

Line in Agriculture

One of the principal functions of the Chemical Division of the Dominion Experimental Farms is to attempt the solution of problems connected with the maintenance and upbuilding of soil fertility.

Among the many valuable results so far obtained in these investigations is the demonstration of the vital part played by lime in the increase of a soil's productivity.

The subject is treated in an interesting and practical way in Bulletin No. 86 of the Experimental Farms regular series, by the Experimental Chemist, Dr. Frank T. Shut, who discusses it under the following heads: The nature of lime and limestone. The agricultural functions of lime and its compounds. Comparative values of lime compounds. The application of lime compounds. The use and misuse of lime. Those interested may obtain a copy of this bulletin by applying to the Publications Branch, Department of Agriculture, Ottawa.

ROBERT WHITEFIELD,

Printer and Publisher.

CROSSFIELD, ALTA., JULY 30, 1915.

Gospel of War.

The Signs of the Times.

Russia has declared for temperance; France is beginning to pray; England is following the lead of Russia against drink-
ing. Who can read the signs of the times and give the full meaning of these im-
portant facts? Does it mean that for reasons of expediency and because of the war pressure these nations are rever-
ting their usual customs? Perhaps their governments and their people may see nothing further in these great changes than is natural in view of the tremendous expenses and losses of the war. But perhaps there may be a deeper meaning; also it may be that history is repeating itself, a habit that history acquired long ago.

Several thousand years ago a certain tribe of people settled in a pleasant and fertile country. The surrounding tribes were not very pleasant neighbours, and not very well disposed towards the new comers. This was quite to be expected since the new comers had driven them out, slain many of them, and were now occupying cities and farms to which they had no apparent title other than the old one of might. The surrounding tribes had strange customs, many of them quite pleasant in a way, but not very edifying. In fact, their customs were decidedly bad, as bad as whisky and beer have been found to be when used too freely. Now the king of the victorious tribe knew very well that his people could not thrive if they imported those quite delightful but very injurious customs, so he made a strict decree that his people must have nothing to do with such practices.

The word of the king was law, and for a time was obeyed and all went well. But soon the influences of their neighbors began to be seen, and gradually the prohibited customs began to be practiced until they became quite common. The king was very angry and concluded that the people should be treated as we sometimes find it best to treat a very bad and self-willed boy. They received a good, sound thrashing, so severe that in many cases death resulted. The punishment was inflicted by the very tribes who had been ousted from their possessions. The king accomplished this by extending to them for a time his generosity, which was always involuntary. The severe lesson had a salutary effect for quite a while. The people became well behaved and were very prosperous.

The little story is familiar to most of us and is the more interesting because it is true. Has it any relation to the action of Russia, France and England in their recent decisions about temperance, and desirability of prayer? Perhaps so. The ruler of Russia, France and England is also the same. Long ago he showed them and all people that intemperance as well as other filthy habits would lead to their decadence and final ruin. But some people are hard-headed, and it may take even a war, with its horrors, to make them sensible and well behaved. If it takes even a war to bring them to their senses the war will come for the king will save his people if possible. Even the slaughter of millions may be necessary, but the lesson must be learned.

Perhaps America may be wise enough to learn common sense from the experience of Europe and clean house in a reasonable way rather than persist in her various follies, so well known to us all, until the cleansing fire visits her also.

BIRTH.

On Tuesday, the 27th inst., at Crossfield, to Mr. and Mrs. W. Tims, a daughter.

Farmers Insure your Buildings in the Wawanesa Mutual Fire Insurance Co. A Company of the Farmers and for the Farmers only. Costs only about 35 cents a year for \$100 insurance.

Chas. Hultgren, Agent.

Death of Mrs. E. Elliss.

Although it had been expected for some time, the death of Mrs. Eliza Elliss on Thursday evening last came as a shock to her family.

Mrs. Elliss hailed from Prairie Sound district, Ontario, and went to reside at Innisfail some 17 years ago with her husband, who worked as a blacksmith there for some time, and died in November, 1907. She had been in indifferent health for some years, living on her own property, and through all these years of suffering she went with Christian resignation. About 12 months ago she came to stay with her daughter, Mrs. Engelson, and for seven months she has been confined to her bed suffering from cancer, and as stated above expired on Thursday last at the age of 66 years.

Two sons and three daughters are left to mourn their loss, John, of Ontario, and James, of Donald; Mrs. McIntyre, of Morrin, Alberta, Mrs. Bannerman, of Calgary, and Mrs. Engelson of Crossfield, all of which were present when the old lady expired.

The deceased lady was taken to Innisfail on Friday afternoon's train and interred in the Union Cemetery on Saturday. The Rev. E. Short, Presbyterian, was the officiating minister.

Red Cross Dance.

The ladies of Floral and Elba districts will give a dance in Mr. R. McLean's new barn, on Friday evening, August 6th, at 8.30 o'clock. Crossfield Orchestra will furnish the music for the occasion and the ladies are sparing no pains to make this dance the event of the season. Luncheon will be served. The gentlemen will be asked for a fee of \$1. Everybody welcome. Remember that the proceeds will be given to the Red Cross Society.

Red Cross Notes.

The Red Cross Society acknowledge with thanks the following donations and articles:

Sewing Circle: 12 many-tailed bandages, 8 hdks., 2 bed jackets, 1 day shirt.

Mrs. Myers, 12 hdks., 1 procks, 6 T bandages.

Mrs. Josemain, 8 T bandages.

Mrs. Almscough, 1 day shirt.

Madge Almscough, 1 wash rag.

Miss Allie Pennick, 4 wash rags.

Mrs. Mossop, 8 many-tailed bandages, 3 wash rags.

Eather Mossop, 12 hdks., 1 wash rag.

Marie Becker 25 cents.

Mrs. Almscough, new Associate member.

Mrs. Curley new member.

The proceeds of the Garden Party given by Mesdames Purvis, Shaw, Jose and Whitfield \$41.

The ladies sewing meeting this Friday afternoon at the home of Mrs. Ivor Lewis, and next week at that of Mrs. Wiggins.

Proceeds of tea at Mrs. McLeod was \$3.65.

Notice to the Public.

Having decided to put our business on a Strictly Cash basis, we would respectfully request that all Accounts Owing to the Farmers Meat Market be paid on or before August 10th. After that date positively no credit will be given.

Parents who have children who are eligible for the High School, and wishing them to commence Next School Term are requested to see Mr. A. R. Thomas, as arrangements must be made at once.

KOOTENAY LAKE, B. C.

Offers many opportunities to the man or woman who wants a home or to make an investment in that prize-winning district of British Columbia. Those interested can secure the desired information, as well as maps, beautiful three-colored maps, regular price 50c. but free if you mention where you saw this advertisement, the amount you have to invest, your nationality, one reference, and also send names and address of at least ten friends or relatives who have bought land in Kootenay Lake district. Our ranchers are making from \$2500 to \$1800 per year off from each bearing acre-actual government reports. Land selling at from \$50 to \$200 unimproved; improved tracts from \$500 to \$2000. No irrigation and its extensive upkeep needed here. Plenty of rain; no severe cold weather—lake 65 miles long and 5 miles wide—never freezes over; successful fishing, hunting and boating; no crop failure in thirty years; no severe storm such as hail, wind, or lightning; no rainy season—no real heat ideal from a climatic as well as financial standpoint.

Names of reliable real estate firms furnished; where to buy the best land; what to plant and when to plant it and how to succeed in every attempt as well as other information furnished free. Answer later than is only a limited number of inquiries at our disposal. Enclose 10c silver postcard.
